

**GCTE SPECIALTY CARE SUB-COMMITTEE MTG MINUTES**  
**March 19, 2012**

<b>AGENDA TOPIC/ PRESENTER</b>	<b>DISCUSSION/CONCLUSIONS/ FOLLOW-UP</b>	<b>RECOMMENDATIONS/ ACTIONS REQUIRED</b>	<b>RESPONSIBLE PARTY</b>
<b>Narrow down Goals</b>	There was a lot of discussion on what it means for a rehab facility to be a "Model Center". It would be nice to get some standardized system in place to get the right patients to the proper rehab facility in a timely manner. This may be a more long-term goal.	None	n/a
<b>Ideas for projects</b> 1) Get state to recognize Rehab as a Specialty Care area, such as burn has been recognized rather than the previous questionnaire idea.	If Rehab is recognized by the state, it will help track patients after they leave rehab. It will also help bring attention to the needs of rehab facilities and possibly open up grant money.	Will need to go through the State Trauma Office to determine what will need to be done to achieve this. Look into who else in state is "model center" and what that means	Lyn Crawford Kathy Slonaker
2) Get ENPC more prevalent in state.	Greg talked to ENA, the education sub-committee has been working on this as well. The state has provided a \$15,000 grant for 3 ENPC courses.	One will take place in Macon, One in Augusta and One in Savannah. We need to compile a list of current instructors around state and get a contact for Augusta.	Rebecca Cogburn
Still need representatives from Burn Centers.	We had two people who were supposed to be joining us, but we have not heard from them.	Tracie will see if anyone at the GCTE meeting has any contacts at either of the burn centers.	Tracie Walton

**Minutes submitted by: Tracie Walton**

**Next GCTE Specialty Care Meeting: Dates will be provided to choose from soon, Mtg to take place prior to next GCTE mtg on 3/21/12**

**Call in Attendance:** Kathy Slonaker, Shephard Rehab, Rebecca Cogburn, MCGG (Peds), Lyn Crawford, CHOA Rehab, Tracie Walton, CHOA, SR, Greg Periera, CHOA (Advisor)
